DETAILED ACTION

1. This Office Action incorporates an Examiner's Amendment and Reasons For Allowance.
2. The Applicant's Amendment After Non-Final filed 11/26/2007 has been entered and made of record.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kathleen Chapman on February 14, 2008.

The application has been amended as follows:

For the claims on pages 2-10 of the Applicant's Amendment After Non-Final dated 11/26/2007:

1. Please further amend claims 6, 7, 10-12, and 22 as shown by the attached pages.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

Independent claims 1, 6, 11, and 22 are allowable over the prior art of record. Claims 3-5, 19, 29 and 30 depend from claim 1 respectively and therefore are allowed. Claims 8-10, 20, and 28 depend from claim 6 respectively and therefore are allowed. Claims 13-18 and 21 depend from claim 11 respectively and therefore are allowed. Claims 23-27 depend from claim 22 respectively and therefore are allowed.

Independent claim 1 recites the limitations of: a) selecting a combination of values for individual profile image characteristics to create each one of the plurality of predetermined profiles, the values being chosen such that the combination is consistent with threat mail, the individual profile image characteristics being associated with various locations on the postage side of the mail piece; g) repeating steps d) through f) for another one of the plurality of predetermined profiles, if the one of the plurality of predetermined profiles does not substantially match the mail piece image characteristics. Similarly for independent claims 6, 11, and 22, the claims respectively recite the limitations of creating a plurality of predetermined profiles using a combination of individual profile image characteristics associated with various locations on the postage side of the mail piece and the repetition step for another one of the plurality of predetermined profiles if there isn't a substantial match.

The combination of these features as cited in the claims in combination with the other limitations of the claims are neither disclosed nor suggested by the prior art of record.

The closest reference Ryan Jr. et al. (US 7,071,437 B2) discloses a system for detecting the presence of harmful materials in an incoming mail stream. However, Ryan Jr. does not teach the limitations cited above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
